LUAT PHAM

Revere MA, 02151   (978) 826-4754   phamdluat@gmail.com

CAREER OBJECTIVE

Focused professional with 2+ years of experience and proven knowledge of application development, database design, and web design. Proficient with configuration management tools, and in developing CI/CD pipelines Aiming to leverage my skills to successfully fill the Software Engineer role.

EXPERIENCE

HARMONIC DRIVE, BOSTON, MA
Software Developer, Feb 2020 - Present

- Modify existing software to correct errors, allow it to adapt to new hardware, or to improve its performance.
- Analyze user needs and software requirements to determine feasibility of design within time and cost constraints.
- Store, retrieve, and manipulate data for analysis of system capabilities and requirements.
- Coordinate software system installation and monitor equipment functioning to ensure specifications are met.
- Evaluate code to ensure that it is valid, is properly structured, meets industry standards and is compatible with browsers, devices, or operating systems.
- Develop databases that support web applications and web sites.
- Developing Gitlab CI/CD pipelines and saving software release times.
- Helped make the company's development, testing and production environments more consistent by implementing container technology using Kubernetes and Docker.
